

## SITE ACCESS GUIDE FOR CONTRACTORS

## SAFESMART UK

SafeSmart Access is a designer and manufacturer of height access equipment, edge protection and scaffolding.

An increase in site efficiency and safety whilst working at height is at the core of the company's purpose.

## SAFESMART ACCESS GLOBAL

Across all industries, we work closely with clients to design and manufacture custom-built steps, stairs, work platforms and any products that help to increase safety and efficiency on site.

SafeSmart and our specialist divisions, SafeSmart Aviation and Proscaf have branches in Australia, New Zealand, UK, Europe, Canada and USA. We understand the regulatory requirements for safety compliance in each region and we design our products around those requirements.

## HISTORY

Since 2007, SafeSmart Access has provided products and completed access projects in a range of industries such as:

- Construction
- Mining
- Warehousing & Distribution
- Oil, gas & Resources
- Utilities
- Retail
- Defence
- Infrastructure
- Aviation
- Marine

## ALUMINIUM TRADE SERIES PLATFORM LADDER

Code	Type	Deck Height	Weight
210300	2 Step	0.6m	8.0kg
210301	3 Step	0.9m	9.0kg
210302	4 Step	1.2m	10.0kg
210303	5 Step	1.5m	12.0kg
210304	6 Step	1.8m	13.0kg
210305	7 Step	2.0m	15.0kg
210306	8 Step	2.4m	17.0kg
210307	9 Step	2.7m	20.0kg

### FEATURES & BENEFITS

- Large non-slip platform surface for added safety when working at heights
- Finger space beside platform - no pinch points
- Central locking latch
- Folds flat for storage and transport
- Wide, comfortable stair treads for easy access
- Welded back brace - greater rigidity, durability & safety
- Diagonal back brace prevents ladder twisting
- Reinforced aluminium inserts in feet for extra strength
- Trapezoidal step treads for ultimate strength and stability

Code	Type	Height	Overall Stile Length	Weight
210261	4-7 Step	1.15m -2.02m	2.27m - 3.14m	21.8kg

### FEATURES & BENEFITS

- Height adjustable for working off a large safe platform at variable heights
- Platform heights adjusted through each ladder's range in seconds
- Set front and back stiles to varying heights for working on steps or uneven ground
- Handrail allows for 3 points of contact
- Large, hard wearing rubber feet for stable grip
- Folds flat for storage and transport

## FOLD-FLAT GUARD-RAILED PLATFORM

Code	Size	Weight
200205	0.45m-0.87m	26.8kg

**200KG**  
Weight Rating

### FEATURES & BENEFITS

- 6 height adjustment settings
- Minimum platform height: 450mm
- Maximum platform height: 870mm
- Platform width: 600mm
- Weight: 26.8kg
- Safe working load: 200kg
- Folds flat for storage and transport

# EDGE PROTECTION

## ADAPTAPANEL

- Temporary and semi-permanent slab edge protection
- Heavy duty framed panel for longevity in harsh site conditions
- Posts bolt to slab edge, and slide-in panels are secured with a fixing bolt
- Optional coated finishes include galvanised and several powder coat colours for brand identification
- Sliding safety latches retain mesh panels preventing unintentional lift-off
- Available in multiple post heights: 1.0m, 1.5m, 2.0m & 3.0mH
- The 1.0mH & 2.0mH panels are ideal for high rise construction and to assist with pez (perimeter exclusion zone)
- Panels may be stacked for easy storage and transportation

## PREVENT DROPS FROM SHOULDER HEIGHT

## NON-DRILL

### FEATURES & BENEFITS

- Eliminate the need for drilling with the NON-DRILL edge protection and handrail system
- Connect to lifting anchors on precast structures
- NON-DRILL works seamlessly with 2.5, 5, 10T connections EdgePro/Hairpin lifting anchors + Ferrules
- Connecting to the anchor eliminates human error and meets industry standards for edge protection
- With NON-DRILL, you avoid costly labour hire, drilling into concrete, exposing steel and cutting off bolts
- Apart from avoiding the need to drill, the big savings with the NON-DRILL system is installation time. You can install 12 NON-DRILL posts in the same time it takes to drill a typical post with 2 holes.
- By planning ahead, incorporating anchors into the design, the SafeSmart team will work with your designers to position the anchors for both temporary edge protection and permanent handrails.

Code	Platform Height
230121	NON-DRILL Post - 1.060m
230122	NON-DRILL 2.5T Clutch
230123	NON-DRILL 5.0T Clutch

### FEATURES & BENEFITS

- Portable post and rail edge protection
- Flat packs for storage & transportation
- Light & easy to use - simply roll up to truck & clip to tie rail
- Suitable for tray heights up to 1.5m
- Outriggers available if not possible to attach posts to truck

## TRUCK PODIUM

Code	Platform Height	Type	Deck Size
210195	1130mm	4 Step	800 x 800mm
210196	1400mm	5 Step	800 x 800mm

### FEATURES & BENEFITS

- Provides access and edge protection to rear of truck
- Built tough with 82x 50mm marine grade aluminium RHS
- Perforated & swaged deck for superior traction in wet and greasy conditions
- Foam filled tyres
- Anti-slip rubber feet
- Solid non slip treads
- Various configurations with options for single gate, salon gates, batwings

# MODULAR BRIDGES

# ADAPTASPAN MODULAR BRIDGE

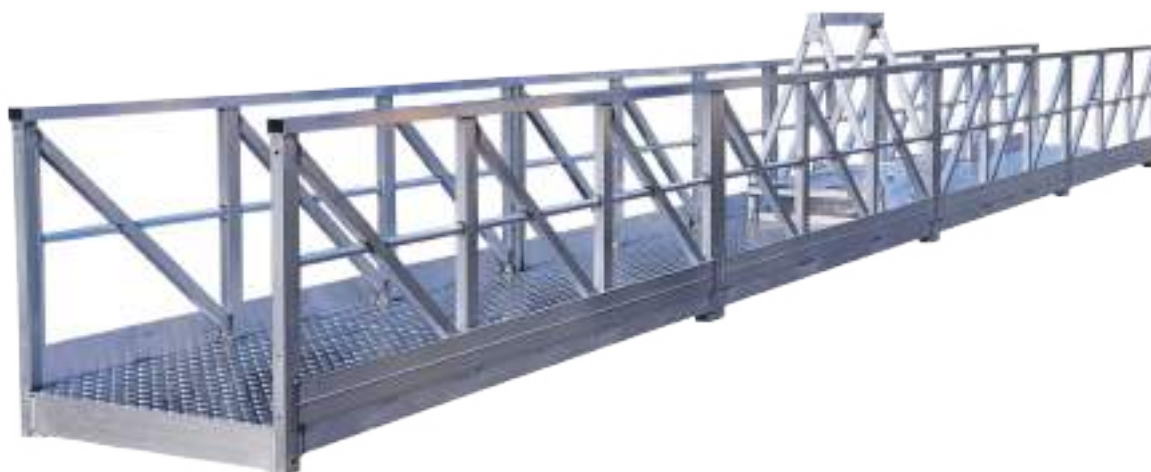

## FEATURES & BENEFITS

- Modular Bridge system to provide safe access across trenches, canals, footpaths and sites
- 1.2mW allows for two-way access
- Join modules together to create a clear span bridge up to 21mL
- Module sizes include; 1mL, 2mL and 3mL
- Bridges can be separated into modules for relocation, transport and storage

## ADAPTASPAN

Code	Description	Measurements
210136	Modular Bridge	1m module x 1.2mW, 2.5kPa
210145	Modular Bridge	2m module x 1.2mW, 2.5kPa

210146	Modular Bridge Tower Crane Access Entry/Exit Swing Gate with Mesh	2mH x 1.2mW
210147	Modular Bridge Tower Crane Access Anti Climb Wings & Panel	2.5mH x 2.23mW

## FEATURES & BENEFITS

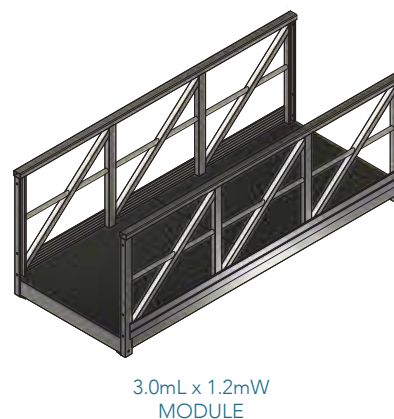

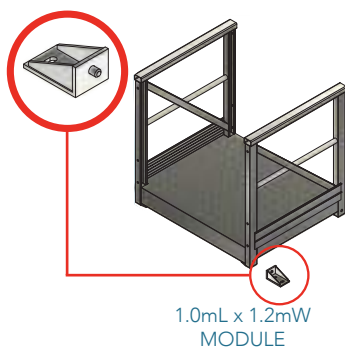

- Increase safety for emergency evacuation procedures
- Provide fast and efficient access for crane operators
- Reduce risks associated with climbing internal access ladder

## ADAPTASPAN ACCESSORIES

SLOTTED HOLD-DOWN  
BRACKET

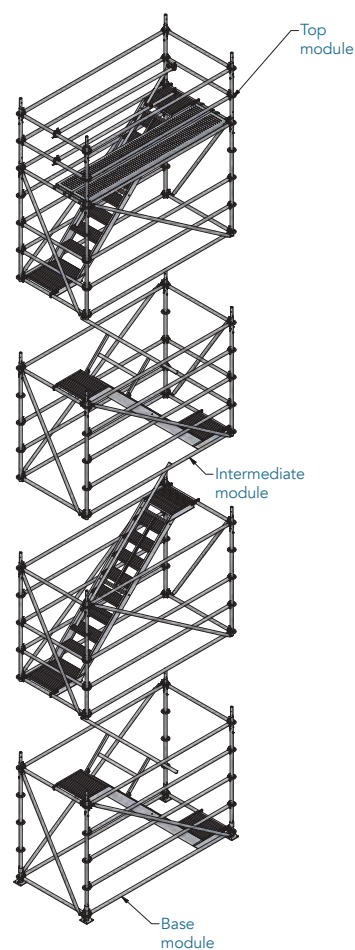

# SCAFFOLDING AND TUBULAR PODIUMS

## CONSTRUCTION STAIR TOWERS

### FEATURES & BENEFITS

- 1.5 and 2m lift heights ensures access heights meet working platform heights, in typical building structures
- Stairs are fully craneable using only Proscaf proprietary components
- 1.5 and 2m lift heights allow for stairs to be installed parallel to working deck, to reduce stair footprint and maximise configuration flexibility
- Lift off prevention devices to guard against accidental or wind load imposed lift off
- Lightweight but strong Aluminium construction; ridged, slip resistant step treads for safety in all conditions

**PROSCAF**

## CLEAR SPAN / BRIDGING

### FEATURES & BENEFITS

- Where on-site access is required over obstructions or roads and walkways, Proscaf is used to provide a pre-engineered, compliant solution – without the requirement for external components such as heavy support beams.
- A constant platform height is maintained on bridging structures, as the spans are built directly off node points. Other systems may require support beams which lead to irregular step and platform heights.

**PROSCAF**

## TRADE SERIES - 0.85M WIDE

Description	Platform Height	Reach Height	Length
Tower + Kickboard	1.2m	3.2m	2.5m
Tower + Kickboard + Stabilisers	2.2m - 12.2m	4.2m - 14.2m	2.5m

## MINI MOBILE SCAFFOLD

Code	Description
234242	SAFESMART - Mini Mobile Scaffold - 1.9m Aluminium Scaffold
234243	SAFESMART - Mini Mobile Scaffold - 3.7m Aluminium Scaffold

### FEATURES & BENEFITS

- Perfect for indoor use & tight access
- Can be erected with just 1 person with minimal bracing needed, reducing overall assembly time
- Unique channel locking platform

## LIFT SHAFT TOWER

### FEATURES & BENEFITS

- Built with the 3T (Through the Trapdoor) method the lift shaft tower is a great working at height solution for a confined space problem, such a lift shaft.
- The tower has a wide range of heights available reaching up to the 30.95m in platform height.
- Specialised Lift Shaft Tower Props to help stabilise the tower while in the lift shaft.

## STAIRWELL TOWERS

### FEATURES & BENEFITS

- Made from high grade aluminium
- Ideal for tight spaces and landing areas on stairwells
- Removable ladder for ease of access
- 250mm Rung pitching
- Single piece folding toe board
- 2 Stabiliser options available (standard or wall prop)
- Adjustable legs and base plates
- Floating spigots for ease of erecting and dismantling

## BESPOKE TOWERS AVAILABLE

Code	Description	Platform Size	Platform Height
BS8620-07	Aluminium podium	0.6m x 0.6m	0.75m
BS8620-1	Aluminium podium	0.6m x 0.6m	1.0m
BS8620-12	Aluminium podium	0.6m x 0.6m	1.2m
BS8620-15	Aluminium podium	0.6m x 0.6m	1.5m
BS8620-17	Aluminium podium	0.6m x 0.6m	1.7m
BS8620-20	Aluminium podium	0.6m x 0.6m	2.0m

### FEATURES & BENEFITS

- High grade aluminium construction
- Lightweight for maneuverability
- Folds up compactly
- Two height settings
- Can be fitted with anti-surf feet

**150KG**

Weight Rating

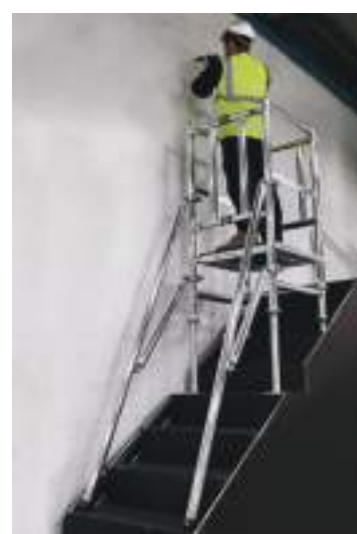

## STAIR PODIUM

Code	Size	Height
38014	6.0m x 6.0m	500mH

### FEATURES & BENEFITS

- Platform area is an ideal size for one man and tools
- The unit is fitted with adjustable plates, ideal for any staircase
- Non slip platform board
- Gated access to allow ease of entry and exiting to and from the unit
- Stabilisers included

# HEIGHT ADJUSTABLE PLATFORMS

EASY RAISE PLATFORM

Code	Description
210766	SAFESMART EASY RAISE 1.2-2.4m Height Adjustable 4 Steps
210767	SAFESMART EASY RAISE 1.4-2.8m Height Adjustable 5 Steps
210768	SAFESMART EASY RAISE 1.7-3.4m Height Adjustable 6 Steps
210769	SAFESMART EASY RAISE 2.0-4.0m Height Adjustable 7 Steps

FEATURES & BENEFITS

- Height adjustable with manual winch
- Incrementally adjustable, locking out at each step
- Adjusts to double its height
- Compact and mobile for easy deployment
- Cantilever increases as platform raises
- Durable marine grade aluminium

CANTILEVER INCREASES AS PLATFORM RISES

Code	Description
210375	7 Step UltraRaise Fixed Cantilever H/Adj Platform 1.97mH – 3.38mH w. 70deg Acc.
210376	10 Step UltraRaise Fixed Cantilever H/Adj Platform 2.82mH – 4.51mH w. 70deg Acc.
210377	UltraRaise Retrofit Loop Guardrail Frame, 1.2mD x 1.5mW
210378	UltraRaise Retrofit Loop Guardrail Frame, 2.0mD x 2.0mW
210379	UltraRaise Bridge 3.0mL x 0.6mW w removable GR MD & TB ea side

## FEATURES & BENEFITS

- Massive height adjustment range!
- Compact and mobile for easy deployment and use in tight workshops.
- 700mm clear cantilever regardless of the height it is set at.
- Height adjustable platform with a manual winch.
- 3 access directions off the platform allowing for flexibility in configuration.
- Bridging attachment to connect between units has multiple configurations.
- Bridging components, no heavier than 17kgs to allow easy install and dismantle.
- Bubble levels at each jack location to assist with levelling.
- Loop guardrail attachment can be placed in all 3 directions off the platform.

## ROCK BREAKER SHROUD

Developed to mitigate the hammer noise effects, control dust and prevent abrasive injuries to personnel onsite by also controlling flying concrete chip and debris.

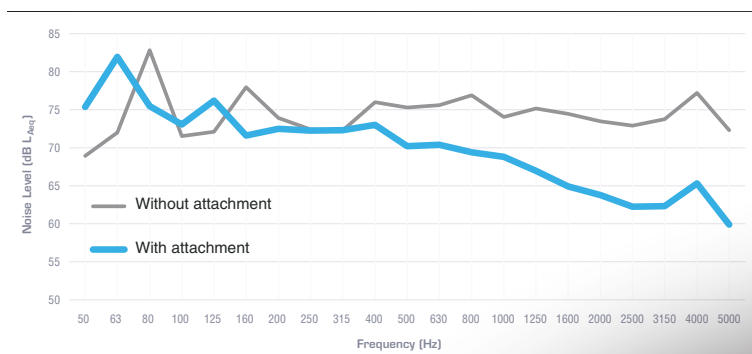

Code	Size
HRBA1	1 - 5T
HRBA2	6 - 10T
HRBA3	11 - 15T
HRBA4	16 - 20T
HRBA5	21 - 25T
HRBA6	26 - 30T

## FEATURES & BENEFITS

- Mitigates noise (most effective to capture at source)
- Reduces dust
- Prevents flying debris/chip
- 1-minute install / removal
- Available to suit breakers from 1T – over 50T in size
- Personalised branding available

## NOISE TESTING

### THIRD OCTAVE BAND SPECTRA FOR MEASUREMENTS

## MEASUREMENT RESULTS

Rock Breaker Attachment	Duration (m:ss)	Noise Level
On	6.25	78 dB LAeq
Off	7.35	86 dB LAeq

## PHONE BOX

Code	Dimensions
HUSHPB	Width 750mm, Height 750mm, Depth 750mm

### FEATURES & BENEFITS

- Provides a quiet environment for site personnel to make phone calls. Especially useful in the event of an emergency
- Quick and easy to install (recommended every 30 - 40m apart)
- Lightweight and relocatable
- Ideal document station
- Reflective strip and fleuro colours available for increased site awareness
- Personalised branding and custom sizing available

## ACOUSTIC TENT

### FEATURES & BENEFITS

- Allow working throughout the night without disturbing the peace of those nearby
- Offers sound absorption of up to 90%
- Fully mobile system
- Packs down to the size of a pallet for easy transportation

PERFORMANCE SERIES BARRIER

Code	Dimensions
HUSHP13	Hushtec Performance Series Noise Reducing Panel 1.3mW x 2mH – 23dB Rating / NRC 0.9

FEATURES & BENEFITS

- Effective re-useable acoustic panels
- Absorbs and reflects sound
- Up to 23dB sound reduction, noise absorption up to 75%
- Quick and easy to erect and fully transportable
- Can also control the spread of dust and fumes
- Weather and UV resistant
- Can be used inside or outside
- Personalised branding available

MISSION SERIES BARRIER

Code	Dimensions
HUSHT13	Hushtec Mission Series Noise Reducing Panel 1.3mW x 2mH – 39dB Rating
HUSHT36	Hushtec Mission Series Noise Reducing Panel 3.6mW x 2mH – 39dB Rating

FEATURES & BENEFITS

- Effective re-useable acoustic panels
- Reflects sound
- Up to 39dB sound reduction
- Quick and easy to erect and fully transportable
- Can also control the spread of dust and fumes
- Weather and UV resistant
- Can be used inside or outside
- Personalised branding available
